PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

HENDERSON DIRECTORIES, LIMITED
PUBLISHERS

Introductory

The present volume constitutes the 1937 edition of Henderson's Directory of Edmonton. The work embodies a complete epitome of the civic, commercial, social and industrial interests and activities of the Municipality. It is a modern Directory in all its parts and includes all the essential features which have proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 41 to 64 and contains data concerning City, Provincial and Federal Government offices, commercial organizations, cemeteries, churches (denominational and miscellaneous), colleges and schools, hospitals, homes and asylums, building exchange and associations, institutes and societies, libraries, military organizations, public schools, secret societies, etc.

THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE is embraced in pages 73 to 268; in this feature the names of all streets and avenues are arranged alphabetically and numerically, giving the location, number on street and showing the occupant.

The intersecting streets are shown in the order that they come.

THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations cover pages 269 to 716.

THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY occupies pages 717 to 758, and exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

ADVERTISING EDMONTON

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Edmonton, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully, The Publishers

HENDERSON DIRECTORIES LIMITED.

June, 1937.

Edmonton

Edmonton is the capital of Alberta. As a name in Canadian history it dates from 1795. In that year the Hudson's Bay Company built a fur post on the North Saskatchewan River about 25 miles below the site of the present Edmonton, beside Old Fort Augustus, built the previous year by the Northwest Fur Company. It was named after Edmonton, near London, England, by George Sutherland, the Hudson's Bay officer who built it because that was the birthplace of his clerk, John Pruden. In 1807 both Old Fort Edmonton and Old Fort Augustus were destroyed by the Blood Indians and both companies promptly built new posts—New Fort Edmonton and New Fort Augustus, on the bank of the river where the city stands today. After the amalgamation of the two great fur companies it became the principal fur depot of what is now known as the Province of Alberta.

From Fort Edmonton the windings of the Saskatchewan River could be followed for hundreds of miles and never a flotilla up or down stream but halted to trade beneath its wooden walls. Overland trails led southwards to the Blackfoot Country, and northward to the Athabasca River, the great fur-bearing country of the Crees, the Beavers and the Chipewyans.

Every spring the furs, the leather and the pemmican, gathered from a hundred points, were sent down the river to York Factory and exchanged for goods needed in the fur trade.

Today the trails are laid with railway lines and highways, while on the site of the old fort now stand the Parliament Buildings of Alberta, and on the opposite bank of the river the magnificent buildings of the Provincial University. Around the old site in the most modern fashion paved streets, spacious parks, stores, houses, and factories have been built and the former fur post has grown into a metropolitan city. The situation is ideal from the standpoint of landscape beauty, and as wealth and population increase, Edmonton will rank as one of the beautiful cities of the continent.

LOCATION AND ADVANTAGES

Edmonton (latitude 53—35; longitude 113—30) is located 300 miles north of the boundary between Montana and Alberta; 200 miles east of the Rocky Mountains; 770 miles from Vancouver on Canadian National Railways via Jasper; 840 miles from Vancouver on Canadian Pacific Railway via Banff and Calgary; and about 800 miles west of Winnipeg via either Canadian National or Canadian Pacific.

It is the commercial and financial centre of 75,000 square miles of territory, rapidly increasing in population and wealth, and contains at the present time 500,000 people distributed on the farms and in the towns and villages of Central and Northern Alberta. Moreover, it is the natural gateway to a vaster region yet to be developed—a region comprising nearly one-quarter of the area of Canada, namely: the Upper Valley of the Saskatchewan, the great drainage basins of the Athabasca, Peace, Slave, and MacKenzie Rivers.

A growing and lucrative trade is growing up with that wonderful North, and Edmonton merchants send their goods to every mining camp, fishing station, fur post and trappers' cabin from McMurray to the Coronation Gulf.

The discovery of rich pitchblende, gold and silver deposits on the eastern shores of Great Bear Lake and gold and silver in Great Slave and Athabasca Lake has raised the importance of Edmonton in relation to the development of Canada's hinterland. Over 6,000 gold claims have been registered in the last two years.

NATURAL GAS

Edmonton has an abundant supply of natural gas, a supply which should last for forty or fifty years. The present source of supply is the Viking Field, located about eighty miles East of the City. Over ten thousand consumers in Edmonton use gas for domestic, commercial and industrial purposes, the majority of which use gas for heating. The annual consumption is about three billion cubic feet.

A CENTRE OF TRANSPORTATION

Always a centre of transportation, Edmonton has kept pace with the natural facilities of her location. It is the hub of the railway system of central Alberta. The transcontinental lines of the Canadian National and the Canadian Pacific pass through Edmonton, and in addition, thirteen branch lines radiate from the city, serving over 300 towns and villages. Rail connections with the Peace and Athabasca rivers open the way to 3,000 miles of lake and river navigation in Northern Alberta and the Northwest Territories.

The city is also an important highway centre. From the east gravelled highways connect Edmonton with Winnipeg, via Saskatoon or Regina. A gravelled road runs south to the Montana boundary; also to Banff and Waterton Lakes. Good dirt roads have been constructed in Northern Alberta and the Peace River country. The scenic Jasper Highway from Edmonton to Jasper Park, 248 miles west, is all gravelled.

HOTELS AND ACCOMMODATION

The city has numerous hotels, apartment houses and private boarding houses that cater to every class of tourist and traveller. The Macdonald Hotel, built in beautiful chateau style, after the famous chateaus of the Loire Valley in France, is one of the finest in Canada.

As befits a city serving so large a community, Edmonton's retail stores are large, numerous and well-stocked. They vie with thousands in larger and older cities in the display of things new and beautiful. They range from the big department store to the specialty shop and the modest corner store. Every style of mercantile trading is represented by the various wholesale houses and jobbing firms.

The Auto Camp, situated on the Edmonton-Calgary Trail, provides motor tourists with most of the facilities of a modern tourist camp—kitchen, laundry, cabins, etc. The Edmonton Division of

the Alberta Motor Association, headquarters in the Chamber of Commerce office, McLeod Building, welcomes all motorists and gives touring information and other assistance free to visitors.

PARKS AND RECREATION

Edmonton has plenty of places of interest both within and without its borders. The social side of life—sport and recreation—is fostered by many organizations and clubs. The theatres give the public the best in moving pictures, vaudeville and road shows. Tennis, baseball, football, cricket and other games are well provided for either by special athletic grounds or in the several city parks. The principal parks are: Victoria, 200 acres; Riverside, 30 acres; Borden, 60 acres; and Exhibition Park, 80 acres.

Edmonton's Annual Summer Fair draws thousands of visitors. Breeders of livestock from all over Canada and many states are regular exhibitors.

AIRPORT AND SEAPLANE BASE

Edmonton has one of the most famous airports on the continent. Some five principal air corporations use the hangar and flying field. It is owned and managed by the City. Twenty miles east of Edmonton, Cooking Lake is used as a seaplane base for the vast aviation trade and mail business carried on between Edmonton and the numerous mining fields and trading posts of the North West and Yukon Territories.

EDMONTON GOLF COURSES

Devotees of the royal and ancient game of golf find in Edmonton a perfect setting for their favorite out-of-door sport. The bright, pleasant days of spring and summer with their long twilight evenings provide ideal golfing even after the business of the day is over.

Edmonton Golf and Country Club: The Country Club course occupies a commanding situation on the banks of the Saskatchewan River, some eight miles south-west of the City.

Mayfair Golf and Country Club: The Mayfair course is beautifully situated in the valley of the Saskatchewan just beyond the University of Alberta.

The Municipal Golf Course, in Victoria Park, is one of the beauty spots of Edmonton. On the one hand rises the green slope of the valley; on the other, the Saskatchewan River winds through tree-clad banks. The valley curves with the bends of the river, the whole forming a natural amphitheatre—fit spot for a city's playground.

The Highlands Golf Course in the east end of the City and the Prince Rupert Golf Course, the latter operated by the Hudson's Bay Company, a mile from the centre of the City.

The Prince Rupert Golf Course, operated by the Hudson's Bay Co., close to the centre of the city, is the latest addition and is becoming very popular.

MUNICIPAL SWIMMING POOLS

Edmonton is well equipped for safe out-door bathing. Three modernly equipped swimming pools are in operation during the spring, summer and autumn months.

The pools are under the direct charge of the City Engineer. Each pool has a qualified swimming instructor. The

water is filtered, heated and sterilized and bacterial tests are regularly made by the city bacteriologist.

COMMUNITY ORGANIZATIONS

The Principal Service Clubs are well represented in Edmonton. Rotary meets Thursday noon at the Macdonald Hotel; Kiwanis, Monday noon at Macdonald; Gyro, Tuesday noon at Macdonald; Optimists, Thursday noon at Macdonald; Kinsmen, every second Friday at Macdonald Hotel; Cosmopolitan, Tuesday at Corona Hotel.

All fraternal societies are represented by strong organizations.

EDMONTON CHAMBER OF COMMERCE

Edmonton has had a Chamber of Commerce for over 48 years. Information on all matters relating to the resources of the district, business opportunities, is freely given by a competent staff in the McLeod Building, opposite the Post Office.

A WHOLESALE AND JOBBING CENTRE

The key position of Edmonton on the map of the Northwest and described above, makes it an important distributing point for a large territory. From the earliest times it was a natural trading centre. In the days of the fur trade it was the principal point west of Winnipeg on the transcontinental route and the head of navigation on the North Saskatchewan river. From Old Fort Edmonton via Fort Assiniboine, the goods for the Hudson's Bay posts west of the Rocky Mountains were regularly despatched. Today Edmonton holds an analogous position in the trade of Western Canada. Besides many independent local firms the number of wholesale houses includes branches of the most important firms of Eastern Canada and the United States, representing every branch of mercantile trading.

INDUSTRIES

In a city so young, manufacturing is naturally in the initial stages, but a splendid beginning has been made and progress is satisfactory. Edmonton's vast supplies of raw materials in the territory surrounding the city, its key position for distribution, and growing market at home and abroad form the basis of an assured industrial expansion. The dairy and meat industries are firmly rooted here and rank with any in the Dominion. During the last few years many industries have sprung up. Prominent examples are men's heavy clothing, fur garments, women's and children's wear, iron, steel and sheet metal products, wire fences, furnaces, brooms, candies, biscuits, beverages, flour, boats, canoes, lumber, window sashes, doors, wooden boxes, cement, brick, paper cartons, etc.

The annual output of manufactured goods total about \$23,750,000 in 1936.

A GRAIN CENTRE

Edmonton is the centre of the grain trade for Northern and Central Alberta. A Government Terminal Elevator has storage capacity for 2,500,000 bushels, and most of the important grain companies of Western Canada, including the Wheat Pool, are represented on the Edmonton grain market. Most of the wheat inspected and marketed in Edmonton goes to Vancouver and Prince Rupert.

EDMONTON LIVE STOCK YARDS

One of the public terminal livestock markets of Canada is located at Edmonton and operated under government supervision. In 1936 livestock to the value of \$3,275,000 passed through Edmonton Live Stock Yards. Thousands of livestock go direct to the packing plants which are not included in the official returns.

AGRICULTURE

Among the Provinces of Canada, Alberta is regarded as one of the richest and most varied in natural, undeveloped wealth. Edmonton is the centre of the largest area of agricultural land of any city in Canada. Most of the land is still in the raw state, but annually over half a million acres of new land is brought under cultivation. The finest quality of wheat, oats, barley, and peas are grown.

Wheat grown in Northern Alberta has been winning prizes at world fairs since 1876. In that year, wheat grown by the Roman Catholic Mission at Fort Chipewyan won highest award at Philadelphia. In 1893, wheat from Peace River won first at the World's Fair, Chicago. Herman Trelle of Grande Prairie, has won twice in succession with wheat and oats at the International Grain Show, Chicago. In 1929 Mr. J. H. B. Smith, of Wolf Creek, 100 miles west of Edmonton, won the same distinction, and in 1930, 1931, 1932 and 1936, Herman Trelle of Wembley repeated his former successes at Chicago. Land and climate that produce cereals of such high quality are among the greatest of a country's natural resources.

DAIRYING

Agriculture in the Edmonton District is developing rapidly along mixed farming lines. Edmonton is the heart of the dairy industry of Alberta.

In 1936 creamery butter production was 18,200,000 pounds in Edmonton and northern Alberta; cheese 750,000 pounds and ice cream 160,000 gallons.

COAL

Alberta contains 18 percent of the coal supply of the world and 85 percent of the coal of Canada. In the Edmonton District it is estimated there are thirty billion tons of known coal reserves. There are two seams under the city of Edmonton. Some 90 coal mines are in operation within 50 miles of the city. The number of men employed averages about 1,000, and the annual production about 550,000 tons. West of Edmonton, on the Coal Branch of the Canadian National, lie wonderful bituminous mines producing annually about 2,000,000 tons. The market for Alberta coals is steadily growing over the prairie provinces and into Ontario.

NATURAL GAS

Edmonton lies on the edge of one of the greatest natural gas fields in America. The field extends in a broad zone from the Peace River in a south-easterly direction across the province to the Battle River, a distance of over 300 miles. The city is supplied with gas from the Viking field, 80 miles east, and some 8,000 houses in Edmonton are heated in this manner. Sixteen wells produce an open flow of 120,000,000 cubic feet a day.

OIL AND ASPHALT

Alberta has recently become the greatest oil producer in the British Em-

pire. Important developments are in progress in the Turner Valley field in Southern Alberta. Edmonton is particularly interested in the Wainwright oil field, 120 miles east on the main line of the C.N.R. Here an area of several thousand square miles is regarded as a favorable oil field. Four principal structures have been delimited. Oil or gas has been found in every well drilled in this area. Oil in quantity as high as 300 barrels per day has been found. It is believed there are two horizons here and that more and deeper drilling will discover larger quantities and higher grades.

SALT

Tributary to Edmonton are salt deposits sufficient to supply Western Canada. Beds 100 and 200 feet thick have been found at Fort McMurray. Salt works have been erected and as soon as railway facilities are provided, production will be increased to supply all of Alberta.

Two hundred and fifty miles north of Edmonton in the vicinity of McMurray, there is an area of 15,000 square miles of bituminous sands. These deposits are of great economic value in the construction of hard-surfaced roads. The Research Department of the University of Alberta, and the Mines Branch of Canada, are experimenting on the best methods of separating the bitumen from the crude oil contained in these wonderful deposits. It has been estimated by geologists that these sands on the basis of 10 gallons of crude petroleum per ton contain 30,000 million barrels.

Active development has begun this year on the salt and bituminous sands by Industrial Minerals Limited and by Abasands Limited. It is proposed to spend \$2,000,000 in the vicinity of McMurray.

FISHERIES

The fresh water lakes of the Edmonton District provide a growing industry in whitefish and trout, and other commercial fish. Over 5,870,776 pounds were taken from these lakes. Fishing is carried on in winter and summer seasons. The output is sent to the United States.

TIMBER

The lumber cut in the Edmonton Timber Agency in 1936 was 75,000,000 feet B.M.

EDUCATION

Edmonton is the educational centre of Alberta. It is the seat of the Provincial University and has an excellent organization of primary and secondary schools. The University was founded in 1906 and opened for teaching in 1908. It has grown to be one of the outstanding institutions of learning in Canada, with a staff of over 100 professors and an attendance of 2,000 students. Degrees are granted in arts, science, agriculture, engineering, medicine, pharmacy, law, and commerce. The University of Alberta is the only body in the province that has the power of granting degrees of academic proficiency. St. Stephen's College (United Church of Canada) and St. Joseph College (Roman Catholic) are theological institutions affiliated with the University.

PRIMARY AND SECONDARY SCHOOLS

There are forty-one Protestant schools for teaching the primary grades, and thirty-six Roman Catholic schools, including the work done in the convents. The needs for secondary education are

met by six high Protestant schools and four Roman Catholic schools. This includes the Technical High School and the Commercial High School.

In addition there are a number of private schools and business colleges.

LIBRARIES

Edmonton has two excellent libraries. The Edmonton City Library contains 70,000 volumes. The Provincial Library, situated in the Parliament Buildings, contains 50,000 volumes, and is rich in works and documents relating to the early history of Western Canada.

HOSPITALS

Edmonton has four hospitals of the first rank—The Royal Alexandra (municipal) 350 beds; the General, operated by the Grey Nuns, 175 beds; the Misericordia, operated by Sisters of the Misericordia, 225 beds; the University Hospital under control of the University of Alberta, 160 beds. Isolation Hospital 100 beds (municipal). In addition there is the Provincial Mental Institute, Salvation Army Grace Hospital, and a special hospital operated by the Provincial Health Department for victims of infantile paralysis.

CITY GOVERNMENT

Edmonton is governed by a Council composed of ten aldermen, elected for two years, one-half retiring each year, presided over by a Mayor, elected for one year, and a Board of two Commissioners, one of whom is the Mayor. The aldermanic board or Council may be termed the legislative arm, and the Commissioners the executive arm of the municipal machinery. The Commissioners have "a general jurisdiction over the affairs of the city, including the care, management and control of the police, fire brigade, and other public services and of the public works and utilities of the city, and of all property works, improvements, roads, streets, and other public places owned and controlled by the city and such other powers and duties as may be designated to them by the Council."

The Council has full control of raising and expending funds required for city administration, and over the rates and the charges for the various public utilities owned and operated by the city.

Since 1921 there has been only two Commissioners, the Mayor, joint Commissioner of Finance, also Commissioner for Police, Markets, Parks, and Public Health; the other Commissioner besides being joint Commissioner of Finance is specially in charge of the public utilities.

Libraries, municipal hospital, Board of Health, sinking funds, exhibitions, public welfare, are administered by appointed boards which are under the direct control of Council.

For a few years the Mayor and aldermen were elected by the method of proportional representation, but this system, after a plebiscite was taken, was abandoned in 1928.

THE ELECTORAL BODY

Every person 21 years of age or over who is a British subject and who has resided six months in the City is entitled to be on the voters' list. There are two classes of electors—burgesses and others. Burgesses alone may vote on money by-laws. A burgess is an elector who is assessed on real property, minimum value \$200, or pays a business tax on the same amount.

Nominations and elections are held as follows: Nominations, 1st Wednesday in December; elections, 2nd Monday in December; hours of polling 9 a.m. to 5 p.m., which may be extended by resolution of Council to 8 p.m. The practice is to keep polls open until 7.30 p.m.

ASSESSMENT, TAXES, ETC.

Land is assessed at its full actual value, and improvements may be assessed at 60 percent of their value, residences 50 percent. Business taxes are assessed on a percentage of the rent paid by the ratepayer on a graduated scale, the average of which is 10 percent. There is also a special tax on franchises based on gross earnings. Appeals against assessments lie to the Commissioners and Council with a final appeal to a judge of the District Court. Other revenue for city purposes is derived from license fees, market fees and surpluses on the utilities, which runs about \$900,000 per year.

TAX RECOVERY

If taxes are not paid on real property before November 1st of the year following in which the tax is due, the assessor files a caveat in the Land Titles Office. The owner then has two years to redeem which, if not done, the title automatically vests in the city without further procedure.

TAX EXEMPTIONS

Exemption from taxes apply to following classes of property: places of worship (1 acre), city property, crown property, burying grounds, public schools, institutions of learning and hospital to extent of 4 acres. The latter institutions are liable for local improvement taxes.

MUNICIPAL OWNERSHIP

Edmonton owns and operates all the public utilities of the city—light, power, telephones, waterworks, street railway and airport. The principle of public ownership has been firmly adhered to by the people of the city since the purchase of electric light system in 1902, when the then town of Edmonton made its first venture upon this policy.

On the whole, this policy has been successful in Edmonton. Since its inception 30 years ago, the city's utilities have made a total surplus classified as follows as of the 31st of December, 1936:

Electric light	\$3,126,751.89
Power Plant	3,349,202.02
Telephones	2,232,417.48
Waterworks	1,455,977.18
Less Deficit on	
street railway.....	1,424,266.78
Total net surplus.....	\$8,743,081.79

In addition to the foregoing surplus the several services have set aside reserves amounting to \$1,750,000 to provide for extensions of plants and for new equipment, bringing the total surplus over \$10,500,000.

ELECTRIC POWER PLANT

Electricity is generated by steam produced in a boiler plant fired by Edmonton coal, and consists of 16 water tube boilers. The capacity of the turbine generators is 23,000 kilowatts. In 1928 a new 10,000 kilowatt turbine generator was added to the plant. It was the first turbine of this capacity on the continent operating at the high speed

of 3,600 revolutions per minute. The current is at a voltage of 2,300 volts, and at this pressure is transmitted to the outgoing feeders. But in order to obtain economical transmission it is stepped up by transformers to a voltage of 13,200.

WATER PUMPING AND FILTRATION

Water is pumped from the Saskatchewan River. Due to turbidity at high water periods all water for domestic and industrial purposes is filtered and sterilized before forced into the city mains. Low-lift pumps with a capacity of 54,000,000 gallons per day raise the water from the river to a mechanical clarifier basin, where sediment is removed. Thence the water flows into agitator tanks to which a proper amount of sulphate of alumina is added, forming aluminum hydrate. The water then flows into large stilling basins where the hydrate coagulates all the sediments and deposits them on the bottom of the basin. Now the water is ready for filtering through sand and gravel beds which remove all traces of foreign matter and most of the bacteria (if present). Before the water is sent by high lift pumps into the mains it is treated with liquid chlorine in quantities proportioned to bacterial tests, which are made daily. By these means the water supply is clear and pure. The pumps have capacity of 28½ million gallons per day.

THE STREET RAILWAY

The street railway system commenced operation on November 9, 1908, with 12 miles of track and 2 cars. By 1914 trackage increased to 52 miles and rolling stock to 87 cars. Since that time there has been little expansion. By reason of the large area of the city and wide river valley, causing the line to be operated through non-populated distances, this utility has been the weak sister of the municipal group. Conditions, however, are improving and before long the street railway is expected to move over to the surplus column. Present mileage 56 miles.

TELEPHONES

Edmonton embarked in the telephone business January 1st, 1905, by purchasing the Edmonton District Telephone Company. In 1908 the Strowger Automatic system was installed and 800

subscribers cut over from the old magneto switch board. Since that time there has been an average increase of 700 telephones every year. By the end of this year most of the subscribers will be cut over to a new two-wire Strowger system, cost over \$500,000. The plant is now arranged on a 5-digit system with an ultimate capacity of 99,000 lines. Miles of wire, 67,285; 87 private branch exchanges; 4 private automatic exchanges, and 168 public pay stations.

GENERAL STATISTICS FOR 1936

Population	85,696
Bank Clearings	\$197,022 175
Net Assessment	\$54,063,020
Tax Collections	\$3,891,776
Gross General Funded Debt.....	\$22,718,582
Net Funded Debt	\$14,256,411
Municipal Assets	\$38,730,495.46

WATERWORKS DEPARTMENT

Municipally Owned—Operated by Council and Commissioners.

Supply—Pumped from North Saskatchewan River at centre of distribution.

Electric and Steam Driven Pumps—Capacity low lift 35,000,000 gallons per day. High lift 35,000,000 gallons per day. Stand by steam 8,000,000 gallons per day.

Reservoirs—One and one-half million gallons capacity; also 1,500,000 gallons capacity Sedimentation and Dorr Tanks mechanical clarifier and agitator tanks. Chlorine and Alum mechanical mixers and necessary buildings.

Purification — 16 Roberts Mechanical Filters. Two 30" and one 20" direct high pressure feed mains to City.

Distribution System — Comprises 126 miles C. I. mains, 27 miles of wood mains and 56 miles of steel mains. Total mileage of Distribution System —209 miles.

Meters and Rates—80% of whole distribution system metered rates from 28c per 100 cubic feet down to 11c per 100 cubic feet—according to consumption.

Consumption—7,000,000 gallons per day. Domestic per capita consumption per day—52 gallons. Total daily per capita 87.9 gallons. Year's average normal increased consumption—2.2%

Henderson's Edmonton Street and Avenue Directory 1937

Ada Boul.

HENDERSON'S (1937) EDMONTON

Cameron St. 73

SPECIAL NOTICE

◆—The Symbol following the residence name, indicates that to the best of our knowledge someone living in the house is the owner.

*—This Symbol indicates that a telephone is located at this number on the street.

This new Home Owners, Tenants and Phone Directory is compiled from information taken on a special house-to-house personal canvass. We do not guarantee to be absolutely correct in every detail, but we believe it to be very accurate and complete, as far as it has been possible for us to get the information personally from someone at each residence. Where occupants have been absent the "owner" information has been left out.
